

## Welcome ...

... to Tandem Göttingen, the friendly language school right in the heart of Germany.

In order to insure efficient and successful learning, our school utilizes student-oriented teaching methods. We strive to create a lively and effective teaching environment in which learning is pleasurable.

We have developed and refined a teaching method that combines traditional grammar-based learning techniques with a game-oriented approach that makes language acquisition a pleasure, and which is designed to spark interest in a wide range of related subjects. We aim to make our students understand Germany by learning its language, and our school is intended to be an international meeting point that promotes intercultural exchange.

Our experienced, highly qualified tutors are all native speakers who specialise in teaching German. As such we are able to guarantee a single-language classroom environment, one in which the most modern teaching methods are employed.

The courses are designed specifically to meet the needs of the students. Students are divided into small groups (approx. ten students per group) in order to maximise learning.

*We want learning German to be an enjoyable experience for you!*

*Our language courses open the gateway to the German language, Germany, and the German people.*

Our school is located in the pedestrian area of the historical centre of town. You will find lots of cafes bars, pubs, discotheques, theatres and cinemas just around the corner. Also, most of the bus routes stop right outside our door. The Language Centre has a friendly atmosphere with highly motivated and qualified teachers.

Our teachers as well as our administrators are always available to assist the participants. Whether a student merely wants to chat, needs linguistic assistance, or needs advice planning excursions for his or her free time, somebody is always available to help. Our relaxed atmosphere enables teachers and students to become friends, and 'Learning German with Friends' is more fun and much more effective. If you are looking for language classes that encourage you to speak German, and for teachers that support you during your stay in Germany, Tandem Göttingen will be an ideal place for you.

People from all walks of life; students, business people, artists and translators have all come together at the Language Centre and experienced a wonderful holiday learning German with friends. So far, we have had students from 57 different countries, and we are still counting.

## Göttingen ...

The enchanting mediaeval town of Göttingen is located in an area of central Germany where the purest German is spoken. Whether buying your food in the market or eating dinner with your hosts, you can be sure that you will be hearing perfect 'high German', free of any regional accents or dialects.

Göttingen's chief landmark is the Gänselesel, known as the most kissed girl in the world. When students receive their doctorates at the University of Göttingen, they climb the fountain on which the statue stands in order to plant a kiss upon the face of Göttingen's own totem goosegirl.

The Gänselesel fountain on the market-place is a popular meeting-point for many young people. Leading from this area is Weender Straße, which links the mediaeval town hall to the modern buildings of the university. In this area of the pedestrian zone you can find street musicians, cafés, boutiques, countless bookshops, cinemas and a large number of student pubs with live music. Göttingen is a lively and vibrant town in which you can enjoy a cosmopolitan flavour at any time of year. We are especially proud of the array of culture events offered here, ranging from open air pop concerts to the famous Händel Festival. There is something here to intrigue and satisfy any kind of taste.
